

# Memorable Weddings - Ceremonies with Style & Sensitivity

## Special Day F X

## Pam Salway - Celebrant

A great idea I came across last weekend.....

If you're planning on marrying outdoors, in a park or beach, why not make your alter out of flowers. Put a selection of flowers (up to you - pick your favourites if you like), put them in tubs - could even use ice buckets - randomly arranged in the tub, then put them selectively where you plan your alter to be.

Makes a beautiful backdrop of an outdoor wedding, plus looks great in photos.
